GREEN SCREEN IN COLLABORATION WITH TALLA SOLAIS, PRESENTS:

**'GETTING UNDER THE SKIN OF TIME:
IMMERSION IN THE WILD WORLD'**

Film Screening followed by 'In Conversation; with Julie Brook

Julie Brook will speak about her time working in Libya, Syria and Namibia and on uninhabited coastlines of the Hebrides.

Through her land drawings and sculptural work she will explore her responses to these landscapes, the materials, the quality of light, time and how the elements influence the nature of the work.

This recent work in Fife I think is especially pertinent in raising awareness about the tidal shifts and rising sea levels. It was made on the coastline near Cellardyke and easily accessed by people.

Doors at 7pm for a 7.30 start - 9 pm

Please use the side door / all welcome / please bring your own cushions

Drop in/donations welcome
